

Supplier Management Guidelines

1. Supplier Onboarding Process

New suppliers must complete the onboarding process, including submission of necessary documentation. The process typically takes 4-6 weeks. Suppliers must undergo a risk assessment prior to approval.

2. Code of Conduct

All suppliers are expected to adhere to a strict code of conduct, including ethical labor practices. Violations may lead to suspension or termination of contracts. Annual reviews will be conducted.

3. Performance Metrics

Suppliers are evaluated based on on-time delivery rates and product quality scores. A performance score of 90% or above is required to maintain a contract. Continuous improvement plans are mandatory for underperformers.

4. Transportation Regulations Compliance

All delivered goods must comply with transportation regulations set forth by federal agencies. Non-compliance may result in penalties or contract termination. Regular training sessions for suppliers are recommended.

5. Conflict Resolution Policy

Disputes arising from contract terms must be submitted in writing within 10 days from the incident. Resolution meetings will be held within 30 days to address concerns raised by either party.

6. Sustainability Practices

Suppliers are encouraged to employ sustainable practices in their operations. Reporting on sustainability initiatives is required annually. Non-compliance may affect future contract considerations.
